FOR IMMEDIATE RELEASE  
**DECEMBER 29, 2020**

## Visit Healthcare Opens COVID-19 Testing Site in Manhattan's Flatiron District

On Monday, December 21, Visit Healthcare began offering COVID-19 testing services at its Manhattan office, located in the Flatiron District. Founded in 2016, originally as an at-home phlebotomy and medical care service provider, Visit Healthcare pivoted its focus to COVID-19 testing in the Spring of 2020 and by Summer, it had acquired COVID-19 testing contracts with numerous cities, counties, and states, and has now tested more than one million people nationwide. Visit Healthcare also works with schools, corporate clients, and production companies with testing teams across the U.S., including in New York City.

Seeing the need for more COVID-19 testing options in Manhattan, along with the demand from its existing clientele, Visit Healthcare designed an indoor space partitioned for safe social distance and equipped with air purification systems for a team of healthcare professionals to administer COVID-19 testing, seven days a week, from 7:00 am to 7:00 pm. Visit Healthcare accepts all forms of insurance at this location as well as out-of-pocket payment (\$100.00 per test or \$300 per test for at-home or place of work concierge service). Visit Healthcare offers the “gold standard” of RT-PCR testing, noting an accuracy and specificity higher than rapid tests, with results available within 30 hours from time of testing.

“We wanted to open our doors to those interested in getting tested leading up to the holiday season,” notes Manhattan-based Visit Healthcare Operations Lead, Max Macedo. “Because we are solely focused on COVID-19 testing and pre-registration through our HIPAA-compliant web portal is available, our wait time from check-in to time of testing has been less than five minutes.”

Visit Healthcare's COVID-19 testing site is located at 46 W 21st St., between 5th and 6th Ave. Advance registration is recommended by going to [www.VisitHealthcare.com](http://www.VisitHealthcare.com) and clicking on “**Schedule Your Visit.**” From there, individuals can arrive at the location, no appointment needed, where they will be checked-in upon arrival.

Visit Healthcare is committed to slowing the spread of COVID-19, **one VISIT at a time.** For more information or to schedule your Visit, go to: [www.VisitHealthcare.com](http://www.VisitHealthcare.com)
